IGN Latest Updates Page Project - v.0.1(0)

Overview

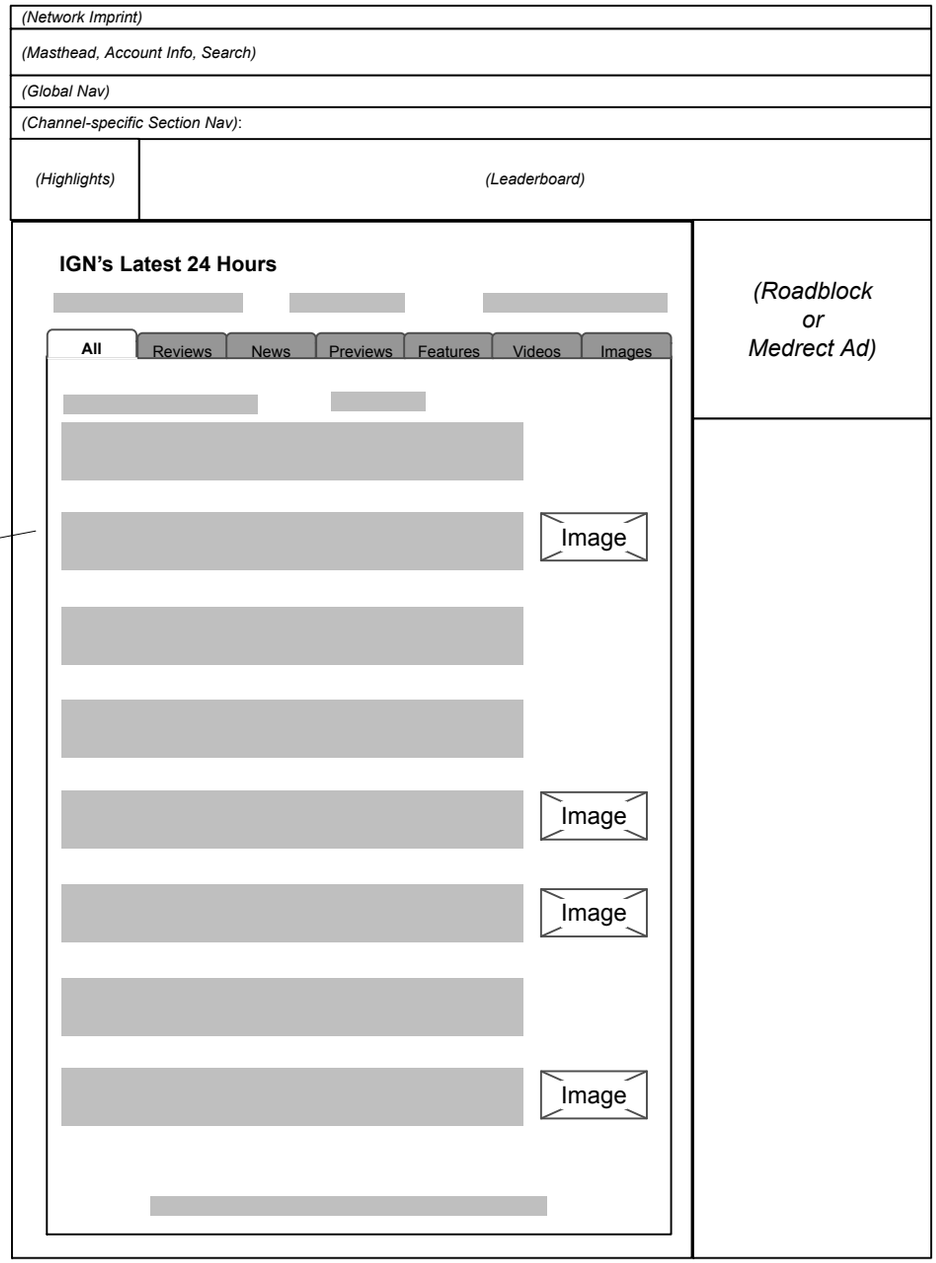
Latest Updates Page

Display latest article updates in an aggregated or filtered format

Notes for Developers

Latest Updates page.
TOC ad formatted.
Each channel will have a Latest Updates page, also a page each for IGN.com, Retro, Stars and Sports channels.
Exclude article copies on aggregated indices for news and features.
Display 15 items per page. Paginate if more than 15 items.
Logic for Last 24 Hours view: Display all items for past 24 hours OR lastest 30 items (regardless of date).
Logic for Last 7 Days: Display all items for previous 7 days from current time and date.



IGN Latest Updates Page Project - v.0.1(0)

Overview

Latest Updates Page – List View

Display latest article updates as a paginated list filterable via tabs.

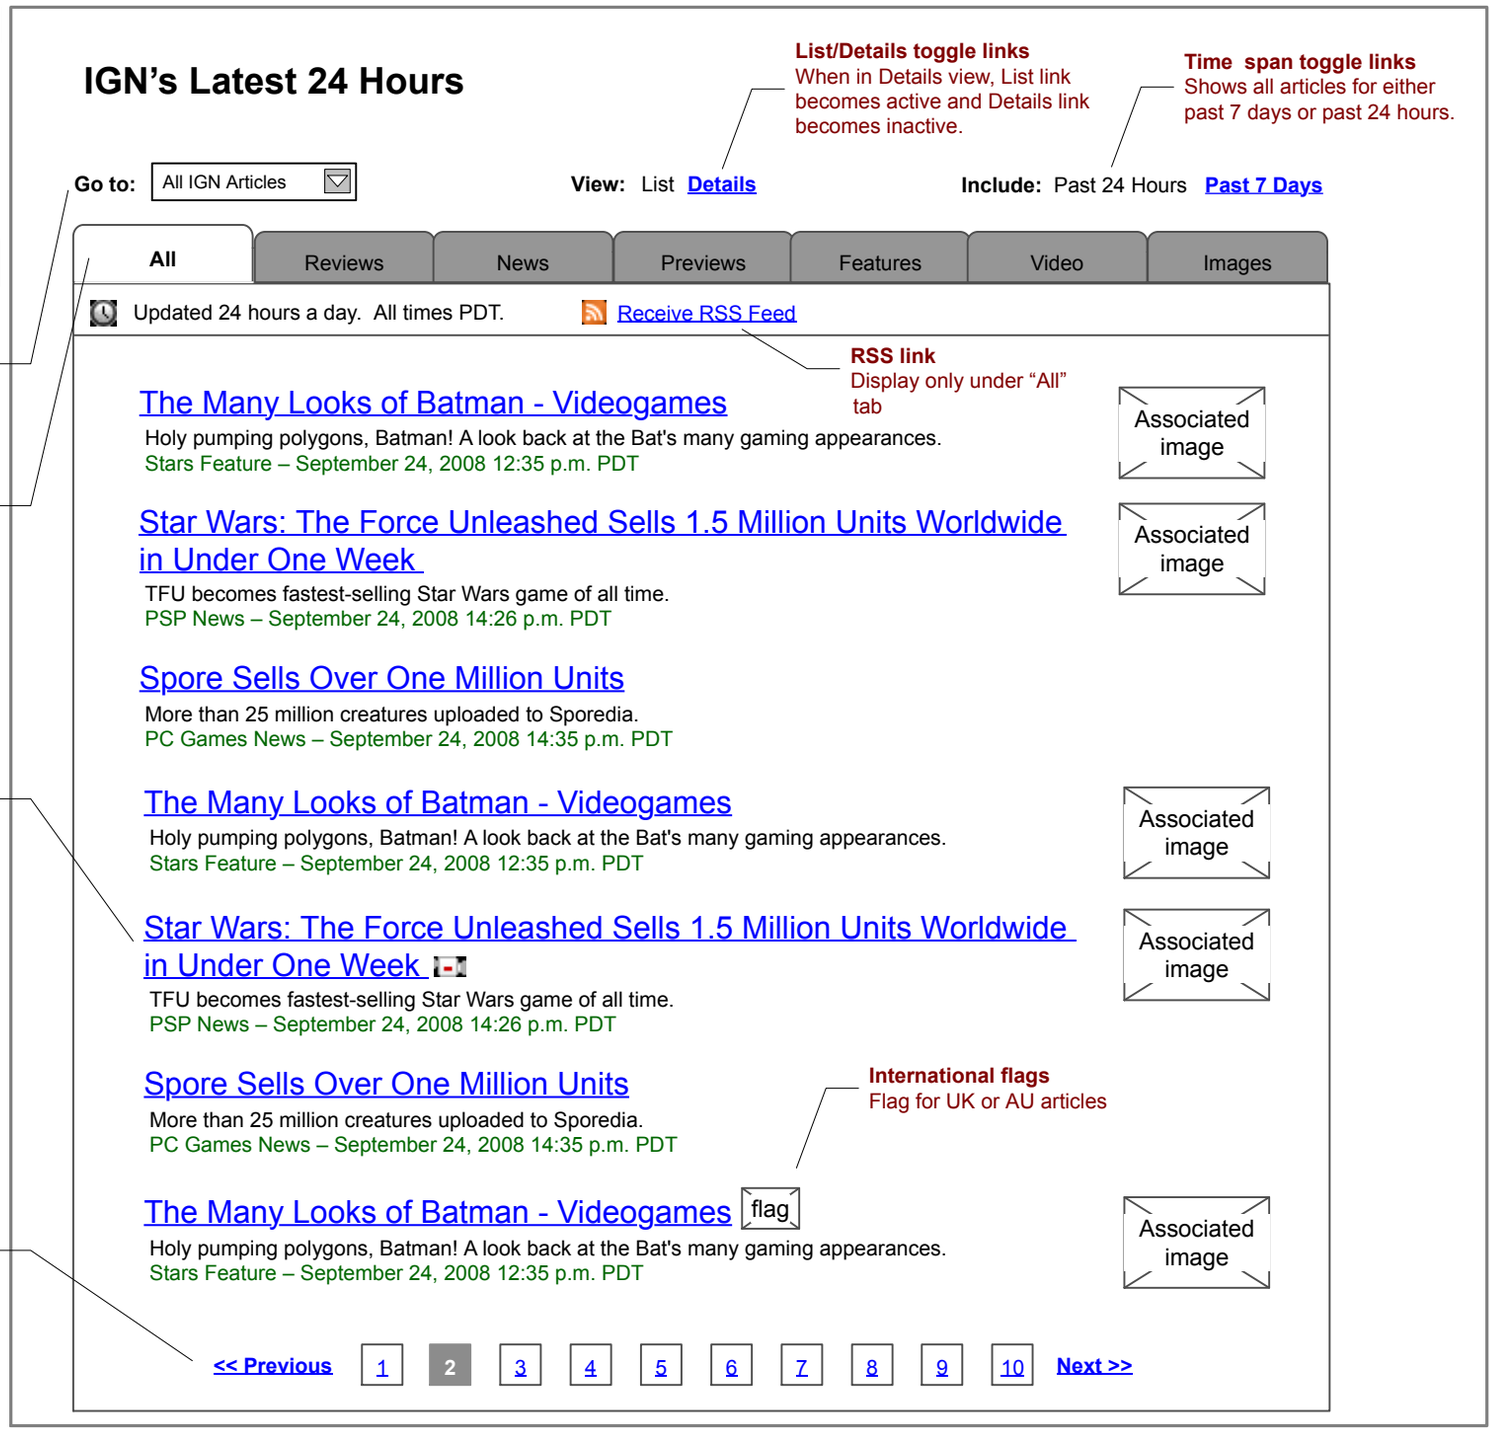
Notes for Developers

Channel navigation drop-down
Drop-down navigates to specified channel Latest Updates page when selected.

Latest Updates Filter Tabs
Display tabs used to filter articles aggregated ("All") or by article type.
"Reviews" tab not present on Stars channel.

List item
Headline – linked to article page
Strapline
Channel and article type, Date and time stamp on single line in alternate color
Associated image, if available (spotlight or thumbnail, TBD by visual design.)
Video or image icon (where relevant)

Pagination controls
"Previous" link – links to previous page of article items. If on first page, do not display.
Display up to 10 page links (based on total number of items to display)
Current page non-linked
"Next" link – links to next page of article items. If on last page, do not display.
Recalculate and re-render whenever list updates.



IGN Latest Updates Page Project - v.0.1(0)

Overview

Latest Updates Page – Details View

Display latest article updates as a aggregated list PLUS article summary.

Notes for Developers

View: Details
When user clicks “Details” option radio button, display hidden paragraph from article.
Details view not an option for Video and Images tabs. If view is currently set to Details and user clicks Video or Images tab, view concomitantly changes to List when items list updates.

The Many Looks of Batman - Videogames

Holy pumping polygons, Batman! A look back at the Bat's many gaming appearances.
Stars Feature – September 24, 2008 12:35 p.m. PDT

Batman has experienced a long, if troubled, relationship with the gaming community. Since the first Batman game was released over 20 years ago, just about every console you can imagine has been blessed (or cursed) with an appearance by the Caped Crusader. Read Full Story

Star Wars: The Force Unleashed Sells 1.5 Million Units Worldwide in Under One Week

Associated image

TFU becomes fastest-selling Star Wars game of all time.
PSP News – September 24, 2008 14:26 p.m. PDT

After less than one week on store shelves worldwide, Star Wars: The Force Unleashed is on track to become the best-selling Star Wars game of all time. LucasArts today announced that more than 1.5 million customers worldwide have purchased Star Wars: The Force Unleashed, making it both the fastest-selling Star Wars game and LucasArts game ever.
